### HSS Youth Health Clinic Launch

Starting March 29th, our school will be partnering up with Northern Health to launch our school's first ever youth health clinic! We will offer current sexual and reproductive health care, information, and education from a feminist, pro-choice perspective. We recognize the many barriers that our youth face in accessing comprehensive sexual health education and non-judgmental and pro-choice services, and how intersectionality impacts access as well as how inequities multiply barriers for certain populations. We strive to put our student clients first, ensuring they have access to the information and care they need.

#### Clinic Services:

- **Birth control: Information, counselling, choices, on-site products, prescriptions. We carry several birth control options on site including:**
